

CIRCULAR

NOW!

THE FUTURE ENVELOPE #15

28

TUESDAY MAY 2024

CONFERENCE ON BUILDING ENVELOPES

FACULTY OF ARCHITECTURE AND THE BUILT ENVIRONMENT
DELFT UNIVERSITY OF TECHNOLOGY

FE15 WILL FOCUS ON THE STATUS QUO OF RESEARCH RELATED TO CIRCULAR BUILDING PRODUCTS BUT ALSO ON WAYS OF ACCELERATING AND SCALING UP THE TRANSITION:

Building products are the basic components of the built environment and thus central to the circular transition. In recent years, there is considerable research in materials, modes of design and manufacturing as well as new implementation protocols; however, circular practices fall short from becoming mainstream whilst circular implementation is further compromised by phenomena of greenwashing.

- # What should be the industry's **circular targets** for the upcoming years?
- # And how are we going to **achieve** them?
